

Release Notes

Guided Work Solutions ToolVad 2.1

July 28 2026

These release notes cover the 2.1 release of the Guided Work Solutions ToolVad utility.

New Features in this Release

Enhanced Compatibility

ToolVad 2.1 supports embedding any plug-in built with GWS SDK 2.4 or later.

Plug-In Selection Methods

Options for the ToolVad command line have changed with this release. These changes provide the option to select a plug-in from an interactive menu or by specifying the plug-in name.

The following options have been added or modified for this feature:

- `-p, --plugin`: Specifies the folder containing a plug-in to be copied into the output vad. This folder is used to build an interactive menu from which the user can select one of the plug-ins. To bypass this interactive menu, use the option below to specify the desired plug-in by name.
- `-pn, --plugin-name`: When used in conjunction with the `-p, --plugin` option this option specifies a single plug-in selection of 'plugin name (connector name)' that is located at the folder set by the `-p, --plugin` option. ToolVad reports an error message and stops if the 'plugin name (connector name)' is not found or not available. If the plug-in is found, ToolVad continues.

Issues Fixed in This Release

Fixes are included for the following issues:

Issue Description	Issue ID
Unable to Resolve Connector Message When ToolVad builds the vad file the incorrect plug-in name is generated inside the vad. This logs an "Unable to resolve Connector" error message in the log.	VGWSC-12050

Issue Description	Issue ID
No Connector Found Message When using the -p (--plugin) option with Checklist or Distribution Plug-Ins a "No connector found in assembly" message is logged	VGWSC-12049

Documentation

- **Guided Work Solutions ToolVad User Guide:** This document describes the ToolVad utility, which is used to convert an existing Talkman VAD into a VAD that allows the Talkman to use the plug-in embedded mode.
- **Guided Work Solutions Plug-In Developer Guide:** This document contains detailed information about GWS concepts required to create new plug-ins or customizations.
- **Guided Work Solutions Checklist Plug-In Integration Guide:** This document contains the installation and configuration information and integration specifications for the Checklist Plug-In.
- **Guided Work Solutions Distribution Plug-In Integration Guide:** This document contains the installation and configuration information and integration specifications for the Distribution Plug-In.
- **Guided Work Solutions Scraping Plug-In Developer Guide:** This document covers developing projects using the Scraping Complex template
- **Guided Work Solutions VoiceLink Plug-In Implementation Guide:** This document contains the installation instructions to use VoiceLink Plug-In.
- **Guided Work Solutions VoiceDirect ERP Plug-In Implementation Guide:** This document contains information for implementing the components of a VoiceDirect ERP solution.

Getting Help

Additional Documentation
